
PROFESSIONAL SUMMARY

Open for new challenges, analytical, goal-oriented engineer with experience in running performance optimization engagements with a strong emphasis on the manufacturing and financial processes. Have carried out 4 initiatives in the area of forklifts fleet modernization and cigarette tobacco recovery. Specializing in production continuity management with a strong focus on forklift fleet maintenance optimization. Responsible for implementation of new innovations, gathering and analyzing data. Having the industry-specific experience I would like to broaden my perspective growing within consulting for international companies.

EXPERIENCE

- **JTI Polska** Stary Gostkow, Poland
Project Engineer *Nov. 2018 - Jun. 2021*
 - **Implementation and coordination of projects related to production process continuity:** Supervising purchasing and maintenance process for a fleet of forklifts in order to ensure operational continuity of the factory.
 - **DELPHI 2 (tobacco recovery machine) implementation:** Overseeing the project of the machine replacement. Delivered significant improvement of recovered tobacco quality as well as quantity of recovered material (increase by 20%). The initiative included also relocation of old Delphi machine to a backup location.
 - **Plan and budget management:** Defining plan & budgets targets, performing continuous forecasting, reconciliation of the financial results. The scope of activities was performed on a budget exceeding 6 M PLN.
 - **Performing reporting and analytical task:** Providing comprehensive reports and analysis about project execution status and resources used (budget). Contributed to the budget optimization the budget, reducing long-tail of spent by 25% over two years period. The activity provided circa 250 K PLN per year in savings.
 - **Perform procurement activities:** Releasing and management of a number of RFP procedures. Covering full scope of activities from long and short list definition, requirements gathering, vendor and product capabilities assessment to final recommendation. Acting both on local and global projects.
 - **Implementation of the IACS system:** Roll-out and post-implementation support of the internal production data security system. Performing back-up and control activities.
- **JTI Poland** Stary Gostkow, Poland
Intern *May. 2018 - Oct. 2018*
 - **SAP workflow implementation for maintenance related tasks for forklifts fleet:** Creating an automated task scheduler (based on pre-build SAP functionalities) for fleet of forklift service activities. Automation helped to facilitate speed of process and reduced number of FTE's needed to perform maintenance activities.
 - **Project support in procurement department:** Supporting purchase project regarding forklifts replacement. Project budget was exceeding 1.2 M PLN.
 - **Control and analysis support for Building & Utilities department:** Supporting senior team members and engineers in planning and budgeting activities required by the department.

KEY COMPETENCES / SKILLS

- **Business:** Project & Operational Management, Budget Planning, Requirements Gathering, Case Analysis
- **Technology:** MS Office, SAP S/4HANA, HTML, CSS, VBA
- **Languages:** Polish- native, English- fluent

EDUCATION

- **Lodz University of Technology's** Łódź, Poland
Bachelor of Science in Engineering Management *Oct. 2014 - Oct. 2020*
- **Warsaw School of Economics** Warsaw, Poland
Master of Finance and Accounting *Oct. 2022 - Present*
- **Sogang University** Seoul, South Korea
Master of Business - Exchanged Student *Sep. 2023 - Dec. 2023*
